

K-Love radio is a phenomenal, vital alternative to today's radio listening. It provides me, my family, and our community with an uplifting and positive message; a rarity in today's society. Many in my community and around the Country listen to K-Love exclusively so that our children will not be exposed to the unhealthy messages of today's music at young ages. Upholding family values and positive themes are certainly in the public's interest, and K-Love is among the few mediums that pushes this message in an open, easily accessible manner. We appreciate K-Love immensely. Thank you for the opportunity to comment.
